II. City Development Connection Fees

a. Water Connection Fees

Water Connection charges are applicable to all new construction, with the charge payable at the time the Building Permit is issued by the City. This shall apply to each dwelling unit, apartment, mobile home or trailer space, or commercial or industrial water user to be served from the same meter whether constructed at the same time or added on the existing property.

Water Connection Fee: \$3,114 per 1" water meter
 \$10,456 per 2" water meter

Connection Fees are adjusted on July 1 of each year based on Construction Cost Index increase as measured by Engineering News Record.

- Water Connection Fees for high usage (greater than 2") to be determined or individually projected usage based on equivalent 1" meter calculations.
- Where a single meter is to serve more than one water user (residential, commercial or industrial) an additional \$1,275 shall be added to the above described connection charge for each dwelling unit, apartment, mobile home, or trailer space or commercial or industrial water user to be served from the same water meter whether constructed at the same time or added on the existing property.
- Connection Fee for Developers – A reduced connection fee may be given to developers who provide their own distribution system. The credit is based on distribution lines and meters that will be provided by the developer. The determination if the developer falls into this rate category will solely be made by the City Engineer.

b. Fire Service Fees

Fire Service Connection charges are applicable to all new construction where fire service is to be installed, with the charge payable at the time the Building Permit is issued by the City.

Fire service connection fees are buy-in fees used to recover the cost of existing reservoir storage and water system capacity for private fire systems. The connection fee for fire service connection is as follows:

- 4" Connection \$3,982
- 6" Connection \$5,575
- 8" Connection \$7,248
- 10" Connection \$10,437
- 12" Connection \$10,437

Connection Fees are adjusted on July 1 of each year based on Construction Cost Index increase as measured by Engineering News Record.

¹ Provided that the minimum Capital Facilities Capacity Charge for such new construction shall be \$4,973; and all calculations shall be on a 1,000 square foot, or portion thereof, basis.

² Low Demand connections are the following categories of users: Nurseries; Warehouses; Churches; Truck Terminals; RV Parks; RV Storage Yards; Lumber/Construction Yards; Public Storage Buildings; and other facilities with whose wastewater discharge is similar to these listed categories.

³ High Demand connections are the following categories of users: Food/Beverage Service Establishments; Supermarkets (with bakery, meat counter, and/or food service); Car Washes; Coin Laundries; Amusement Parks;

Shopping Centers with one or more Food/Beverage Service Establishments; Food Courts; Food Processing Facilities; Textile Manufacturers; Breweries; and other facilities whose wastewater discharge is similar to these listed categories.

⁴ All other connections are Average Demand users including: Church Offices and Schools; Hotels, Shopping Centers/Strip Malls without food/beverage service establishments, Music Halls without food facilities, Office Buildings, Senior Housing with individual living units without kitchens but with a common kitchen.

⁵ Bedroom additions are considered a change of use and a CFCC must be paid. Enclosed loft additions, bonus rooms, offices, workout rooms, media rooms, libraries and any other enclosed addition which could potentially be used as a bedroom are included in this category. The classification of these additions will be reviewed and determined by staff.

⁶ MFR units consist of multiple attached units that are not sold individually and receive one secured property tax bill such as apartments. Multiple attached units that are not sold individually and are senior housing with individual living units that include a kitchen are considered MFR units.

⁷ Studio – one single room with no separating doors or openings leading to another part of the room (except for a bathroom).

*SFR – The rates for each size of the SFR and MFR are established with a 3-bedroom SFR having a base of 1.0, and all others are a relative percentage higher or lower than 1.0, depending on size of unit, as noted.
