

## **Dog Park Update – April 25, 2013**

### Construction Begins at Wildcatters Dog Park

Great news! Grading and clearing of the land for the new dog park at the corner of Santa Fe and Valencia Avenue is underway. Final construction plans will soon be submitted.

In an effort to maintain a safe environment for the dogs, Public Works and Community Services are working on establishing general dog park rules. By using the community outreach efforts done by the non-profit group the “DOGuardians,” the feedback from the community gathered in September 2012, and information from other dog parks, will help to create a comprehensive set of rules for this much anticipated community amenity. Park hours of operation and a maintenance schedule are also being developed.
